

Consistency in an Unstable Market

Do you have the lenders and inventory in place to handle a wide array of subprime customers? If so the AutoNet Financial No Sale No Fee Special Finance Lead Program is a great fit for your store.

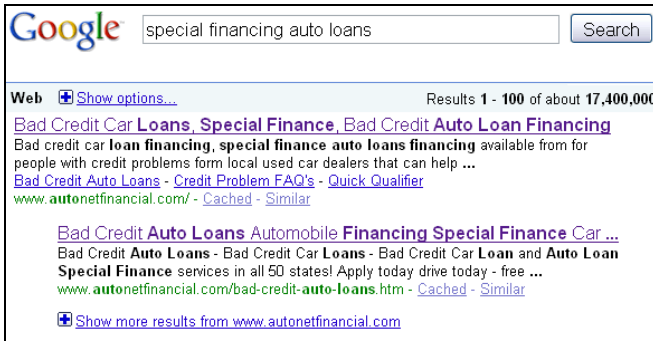

Our program has helped stores like Summit Place Kia add an average of 18 car sales per month for the last two years.

ANF employees have been delivering customers on a cost per sale basis since 1992.

Where our Customers Come From

When consumers in your area go online and search for a better way to buy a car with bad credit they find us.

Compare us to any you'll agree that nobody gets more subprime traffic than the AutoNet Financial Collection of Websites.

How Customers Get to You

After our call center pre-screens the applicants and determines there is a high likelihood that they qualify for a subprime lending program we'll schedule a time for them to visit your store with STIPS in hand.

No Sale, No Fee

We generate the traffic, qualify the customer, and send them to your store ready to buy a car. **We only get paid if you sell a car.**

Territories are Exclusive

We prefer to work with less than a handful of dealers in each major market so the opportunities are limited. ANF is looking for stores who have the expertise, the lending programs and the inventory to achieve a high closing ratio on the customers we send them.

The program is designed specifically for the best sub prime managers and stores in the country. It will complement all other advertising mediums and deliver a customer who is ready to "do business" when they get to the store.
